Okay, thanks for the heads up. Yes, hopefully we can get a copy so we know what it says. I can try to touch base with Anna tomorrow.

Jenny,

I think this is coming your way. I haven't seen the letter Mooney refers to but I have asked what it's about. Maybe we can actually get a copy.

Thanks, I heard a couple of the messages. Apparently there is a letter from Rep. Grothman and Sen Johnson about Sheboygan and people are calling us to tell us they don't want us to do what the letter says. As you get them, please come up with a system to save the people's info. We should figure out a way to respond. You will get a bunch, I am aware of over a dozen that have come in already.

Hi Sarah and Anna,

I'm assuming this has to do with ozone in Sheboygan which my group handles. I'm out of the office today and tomorrow. John Mooney is very familiar with this situation in case we need to get back to any elected officials immediately.

Hi Doug,

You can forward those calls to me. I called the Senator's office and they were not aware of any outgoing letters but said they have had some weird things happen recently regarding communications. Before we respond, I will wait for them to call back to get more information.

Hi Sarah,

Deborah from the hotline had forwarded three phone calls regarding air quality in Sheboygan, she didn't know I was back. You can send them to me. The callers received a letter from their Senator indicating they should call the EPA , I have a call out to the Senator to find out wtf.

Thanks,
